

## ***LogoPaths: 200 Steps***

Use *LogoPaths Free Explore* to make rectangles with perimeters of 200 turtle steps. Make sure that some of your rectangles have sides that are not multiples of 10. If you can, make a square with a perimeter of 200 steps. Use the **Teach** tool to name your solutions. Save your work when you have finished.

Sketch at least four of the rectangles you made in the space below. Label the length of each side.
