

End-of-Unit Assessment (page 1 of 2)

Use this information to solve the problems.

Benjamin got \$10.00 from his grandmother and went shopping. He bought the following items:

Paperback book	\$2.99	Pencil	?
Baseball cards	\$1.56	Rubber frog	?
Fruit snack	\$1.78	Total	\$8.21

1. How much did Benjamin spend on the first three items he bought?
2. Benjamin spent \$8.21 altogether. Figure out what the prices of the pencil and the rubber frog could be. Explain your thinking.

Name _____

Date _____

How Many Hundreds? How Many Miles?
